EDUCATION

Thapar Institute of Engineering & Technology

B.Tech in Electronics and Communication Engineering; GPA: 8.56

Punjab, India

Aug 2023 – Jul 2027

EXPERIENCE

Xebia | DevOps Intern | Docker, AWS, GitHub Actions, CloudWatch

Jun 2026 – Jul 2026

- Reduced deployment setup time by **30%** and standardized releases across environments by containerizing and deploying Xebia's internal LMS on **AWS** using **Docker**.
- Reduced release turnaround by **30%** and improved deployment reliability by designing and implementing a multi-stage **CI/CD pipeline** using **GitHub Actions**, **Docker**, **AWS EC2**, and **CloudWatch**, automating testing, deployment, monitoring, and health-check based alerting.

Hosmas | Full Stack Developer Intern | Django, Docker, PostgreSQL, Redis, GCP

Dec 2025 – Feb 2026

- Reduced query latency under production traffic for an **INR 1.5M funded** hostel services platform by optimizing PostgreSQL queries and implementing Redis caching.
- Increased peak-load request success rates by **10%** through designing and load-testing concurrent booking APIs; streamlined releases via Dockerized CI/CD deployments on GCP.

PROJECTS

MiniCloud | Docker, AWS, PostgreSQL, Redis, BullMQ | Link

Feb 2026 – Mar 2026

- Enabled **zero-touch** application deployments by building a Vercel-style **PaaS** on **AWS EC2** with GitHub Actions **CI/CD**, Redis, and BullMQ-based build orchestration supporting automated Docker deployments.
- Designed a **microservices architecture** with API, build worker, database, queue, and reverse proxy, enabling **per-project subdomain routing** and HTTPS deployment via Cloudflare Tunnel.

AutoJobFlow | MongoDB, Redis, BullMQ, React | Link

Jun 2025 – Aug 2025

- Architected a distributed backend with Redis and BullMQ, leveraging caching, sliding-window rate limiting, and **asynchronous queue processing** to deliver **500+ JD-based ATS analyses** concurrently across multiple users.
- Built a real-time leaderboard via **WebSockets** and Redis-backed active-user tracking for live rank synchronization, alongside ATS scoring and job-tracking workflows adopted by **100+ users**.

ALM Chatbot | Python, Multimodal AI, Inference Pipelines, Docker | Link

Nov 2025 – Dec 2025

- Engineered a multimodal Audio Language Model using Whisper, CLAP, and LLaMA for speech and non-speech understanding, achieving **sub-10s latency**, improving inference efficiency by **40%**, and earning **SIH 2025 National Runner-Up**.

SKILLS

Languages: Java, JavaScript, Python

Frameworks: React.js, Node.js, Express.js, Django, REST APIs

Databases: PostgreSQL, MongoDB, Redis

DevOps & Tools: AWS EC2, GCP, Docker, CI/CD, GitHub, WebSockets, Microservices

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS

- National Runner-Up**, Smart India Hackathon 2025 — awarded by the Government of India (DRDO).
- University Scholarship — merit-based scholarship worth **INR 150,900** based on JEE score.
- 600+** problems solved across LeetCode, CodeChef, Codeforces, and GeeksForGeeks.

LEADERSHIP

Google Developer Groups | DSA & Web Development Lead | Link

Jul 2024 – May 2026

- Led Web Development and DSA initiatives for GDG, mentoring **300+** students and developing Quyl, an AI-powered study assistant with document Q&A and course search capabilities for Thapar students.
